Rudra Raj Kiran

Full-Stack Developer | Software Development Engineer (SDE)

Khammam, Telangana, India

+91 9949404086 rajkiran1.dev@gmail.com linkedin.com/in/rajkiranraj github.com/rajkiranraj rajkiran-dev.app

Skills

Languages: C++, JavaScript, TypeScript, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, PHP (Laravel)
Databases & ORM: MySQL, MongoDB, Prisma, Supabase
Tools: Git, GitHub, Postman
Concepts: Data Structures & Algorithms, OOP, REST API Development, MVC Architecture

Projects

WelthIQ.ai – Full Stack SaaS Application | GitHub | Live Demo **Dec 2025**

- Developed a full-stack AI-powered finance platform using Next.js, React, and Supabase for full-stack web development and real-time transaction analytics and financial insights.
- Implemented secure authentication and authorization workflows using Clerk and Razorpay, with async background processing via Inngest, ensuring smooth frontend-backend integration.
- Built scalable backend services and RESTful APIs for financial data processing within a scalable system architecture.
- Designed RESTful APIs and optimized database queries for efficient financial transaction processing and scalable system performance.
- Applied rate limiting and security controls (Arcjet), reducing abusive requests by ~40% and improving application reliability, debugging visibility, and production stability under high traffic scenarios.

Tech: Next.js, React, Tailwind CSS, Supabase, Razorpay, Prisma, Clerk, Inngest, Arcjet, shadcn/ui

LMS.ai – AI-Powered Learning Management System | GitHub **Aug 2025**

- Engineered an AI-powered Learning Management System (LMS) that generates personalized course content and adaptive learning paths, implementing responsive role-based dashboards for students and administrators.
- Deployed production-ready applications with secure authentication and scalable backend services.
- Designed role-based dashboards and progress tracking, reducing manual admin effort by ~35%.
- Optimized backend workflows and database queries for scalable content delivery and reliable user progress tracking.
- Implemented secure authentication and authorization with role-based access control (RBAC) for students and administrators.

Tech: Next.js, TypeScript, OpenAI API, Prisma, PostgreSQL, Razorpay, Clerk Authentication, Tailwind

Technical Training

Data Structures and Algorithms — Lovely Professional University (LPU), 2025 | Credential

- *Applied core DSA patterns including arrays, recursion, greedy, divide-and-conquer, and dynamic programming for problem-solving and optimization.*
- *Solved 300+ problems across LeetCode and HackerRank with emphasis on time and space complexity optimization.*
- *Gained experience with contest-style problem solving under time constraints.*

Certificates / Certifications

Oracle Cloud Infrastructure (OCI) Certified Generative AI Professional **Sep 2025**
Oracle | Credential

HackerRank – SQL Certification **Oct 2025**
HackerRank | Credential

Education

Lovely Professional University **2023 – Present**
Bachelor of Technology (B.Tech) - Computer Science and Engineering — CGPA: 7.97 *Phagwara, Punjab*

Krishnaveni Jr College **2021 – 2023**
12th — Percentage: 95.9% *Khammam, Telangana*

SFS High School **2020 – 2021**
10th — Percentage: 100% *Khammam, Telangana*
